

## Advisory\_06\_14\_2013

### Goose Rocks & Colony Beach Water Status June 14, 2013

The laboratory results are in for June 12, 2013. All of Goose Rocks Beach and Colony Beach test site results are within acceptable levels. Both beaches and the mouths of the Little, Batson and Smith Rivers are open for water contact. Due to the elevated water samples from testing 6/11/2013, a resample was conducted at the elevated sites 6/12/2012.

The town of Kennebunkport participates in the healthy Maine Beaches Program, which is a cooperative partnership to test the water quality of Maine beaches. Volunteers take tests once each week. If tests identify elevated bacteria levels, the public is notified to avoid water contact.

**Colony Beach:** 20

**Goose Rocks Beach:**

Mouth of the little River: 31 retest results 6/12/2013
