

## Beach Advisory-July 30, 2005

### GOOSE ROCKS BEACH WATER STATUS

July 30, 2005

The laboratory tests results are in for July 29. Water samples taken at 177 Kings Highway were elevated. This site is located just opposite Cottage Avenue. Directions to Cottage Avenue: From Dyke Road, at the General Store take a right. Cottage Avenue is located on the right just before Norwood Lane. It is advised that you avoid any water contact at this site at this time.

This advisory is in affect until further notice. The bacteria levels at the remainder of the beach are within an acceptable limit.

The Town of Kennebunkport participates in the Maine Healthy Beaches program which is a cooperative partnership to test the water quality of Maine beaches. Volunteers take tests once each week. If tests identify elevated bacteria levels, the public is notified to avoid water contact. At this time the Town of Kennebunkport is increasing the testing frequency to daily to assist in the determination of bacteria sources.
