Goose Rocks & Colony Beach Water Status

July 31, 2014

The laboratory results are in for July 30, 2014.

All water samples from the test sites at Colony Beach and Goose Rocks Beach are within the acceptable range for water contact.

The town of Kennebunkport participates in the Healthy Maine Beaches Program, which is a cooperative partnership to test the water quality of Maine beaches. Volunteers take tests once each week. If tests identify elevated bacteria levels of over 104, the public is notified to avoid water contact. A repeat test is then conducted as soon as possible.

Colony Beach: 147 -7/30/14 Retest 31 7/31/14

Goose Rocks Beach:

Mouth of the little River: 759 7/30/14 Retest 5
