

Beach Advisory-August 30, 2006

Goose Rocks & Colony Beach Water Status

August 30, 2006

The laboratory results are in for August 29, 2006.

All of Goose Rocks Beach and Colony Beach test site results are within acceptable levels. Both beaches and the mouths of the Little, Batsons and Smith River are open for water contact.

The town of Kennebunkport participates in the Healthy Maine Beaches Program, which is a cooperative partnership to test the water quality of Maine beaches. Volunteers take tests once each week. If tests identify elevated bacteria levels, the public is notified to avoid water contact.

Kennebunkport's water quality dedicated line: 967- 0407

Colony Beach: 5

Mouth of the Little River: 10

Public Access at Broadway: 5

Public Access at Belair: 52

Public Access at 177 Kings Highway: 5

Mouth of the Batson/ Smith Rivers: 10

This is the last Healthy Maine Beach report for the summer of 2006. Forrest Bell and his team will be finishing their sampling during the next few weeks. I will send you a report of our Optical Brighteners project when we receive the results.

Happy Labor Day weekend / Judy Barrett
