Precautionary Advisory 9/3/2013

Due to the high rainfall of over 5 inches 9/2/2013 in less than 24 hours, a precautionary ADVISORY is in place for both Colony and Goose Rocks Beach. Under these conditions it is recommended that there be no water contact for a minimum of two tide cycles from the last rainfall.

Samples were taken at both Colony & Goose Rocks Beach this morning.

Judy Barrett

Kennebunkport Maine Healthy Beach Manager
