Advisory_09_04_2013

September 4, 2013

The laboratory tests results are in for samples taken on September 3, 2013. An Advisory is in place for Goose Rocks Beach & Colony Beach. Kennebunkport had slightly over 5 inches of water on Sept 2nd. The extremely high readings are a result of the run off from inland. This advisory is in place until further notice.

Next water sample testing will be September 5, 2013

The Town of Kennebunkport participates in the Maine Healthy Beaches Program which is a cooperative partnership to test the water quality of Maine beaches. Volunteers take tests once each week. If tests identify elevated bacteria levels, the public is notified to avoid water contact.

NOTE: An Advisory is posted with any sample result exceeding the EPA set limit of 104.
