

Kennebunkport Fire Department

REGULATION 12

PUMPING OF WELLS OR SWIMMING POOLS

JAN 1990

The pumping / cleaning of wells and swimming pools is generally not considered as department policy since the Town does not carry a liability coverage for this type of operation, and the intake of sand and debris into the portable pump causes unnecessary wear on emergency equipment. Until such time as the Town decides to purchase this form of liability coverage, this department will not pump out wells or swimming pools.
