P.O. Box 566, Kennebunkport, ME 04046  
ph: 207.967.4243

## **Kennebunkport Fire Department**

### **REGULATION 13**

#### **FILLING OF WELLS, POOLS, ETC.**

JAN 1990

Due to the lack of insurance coverage for filling of wells and swimming pools, this department will not supply any water for the purpose of filling wells or swimming pools regardless of the hardship to the home owner. Tank protector is often used in our apparatus and even those units that do not have the protector often receive it as a result of filling from another piece of apparatus. Tank protector should never be used in conjunction with drinking water or with the liners on swimming pools.

Liability, should a well or pool become damaged from the addition of water from our tanks, would fall on the town and the department. Until such time as the town wishes to include this coverage on the insurance, this department will not haul water for wells or swimming pools.
