BODY FLUID EXPOSURE

FEB 1992

SEPT 1999

Members of the Kennebunkport Fire Department will not enter and are not qualified to enter areas at scenes of accidents, illness, or other emergencies under the jurisdiction of the Kennebunkport Fire department where body fluids could reasonably be expected to be present except under the following conditions:

1. The member has been inoculated against Hepatitis "B", or the member has signed a waver stating that they do not wish the Hepatitis "B" immunity program.
2. The member has donned appropriate protective clothing.

If a member is asked by a Fire Department officer or other rescue personnel to assist in the possible danger area, it is the responsibility of the member to inform the officer or rescue personnel if the member is not properly qualified.
