Minutes for the 11/14/18 – discussed and approved.

Discussion:

Werner Gilliam presented the initial draft presentation that the STR committee intends to bring forward to the Board of Selectmen in the near future. Slides contained information concerning number of short term rentals, general survey information, all the survey question results, a listing of perceived STR issues along with findings, and some potential next steps. Requested changes to the slide included the following:

Verify STR data being used is just private homes and not hotels, remove Portland vs Kennebunkport comparison and either find a town similar to the Port, or just present Port data and a request for seeing breakdown of zip codes for the survey mailing. Request was made for a reformatting of the slide that outlined perceived issues with short term rentals vs the findings. All other information presented was to be posted to the Town website. The committee decided that it wanted to have one more meeting in January, date to be determined.

Meeting adjourned at 6:30pm
